Daniel John Keefer

Professional Web Wizard for Hire.

About Me

I love creating useful and beautiful things with code. I am constantly learning what tricks I can make my computer do. I am a big Nerd and stereotypically love D&D, Video Games and Star Trek.

Projects

PORTFOLIO WEBSITE

www.danielkeefer.com
Utilizing HTML, SASS and Javascript I have deployed my own website to showcase my creativity and proficiency with frontend technologies.

SUDOKU SOLVER

https://github.com/SimoSultan/sudoku_solver
A simple terminal app built with a friend, it a simple terminal app written in ruby that will solve sudokus. It was an exercise with rspec and TDD.

MVC GUMBALL MACHIINE

https://repl.it/@xxKeefer/gumball-machine#main.rb
A quick Terminal app to demonstrate my understanding of the Model, View, Controller design pattern

Experience

TELSTRA SALES CONSULTANT

October 2017 - present
It is my job to advise people on technical issues related to their phones and internet. Give excellent customer service and drive sales.

CODER ACADEMY

February 2020 - February 2021 (completion date)
It has been an excellant experience so far and I look forward to completing the course and becoming proficient with the MERN tech stack
